

International Journal of Fundamental & Applied Sciences is now in its 3rd year of quality publication

Dear Authors and Readers,

I am pleased to announce that International Journal of Fundamental and Applied Sciences (IJFAS) (ISSN 2278-404) an official international journal sponsored by BioMedAsia publications have successfully completed its two years of publishing quality scientific work in different disciplines of sciences and has now entered in to third year. In the last two years this journal has been indexed in various databases like Zoological records (ISI) , Thomson Reuters, DOAJ, Indexed Copernicus etc. At present we are also working to strengthening the indexing for IJFAS articles in PubMed, SCOPUS, SCI and many more.

The journal aims at publishing peer-reviewed articles in the research studies of phenomena associated with biomolecules, computational biology, bioinformatics of organisms in experimental models, basic biochemical pathways including their applications in pharmaceutical, agricultural and industrial biotechnology and immunological processes with their applications in health and diseases. It publishes cutting-edge research reports, commentaries, reviews, databases and perspectives. The journal is not only intended for basic scientists and clinicians in the field of Biology, but also for those in other fields who wish to follow Biology. It aims to

provide a new platform for promoting understanding, improving interpretations and advancing studies in Biological Sciences.

The Editorial board includes experts working in different field of fundamental and applied sciences worldwide who can use their expertise to improve the quality of the articles published in IJFAS. We are also obliged to our reviewers who spare their invaluable time for reviewing the scholarly articles.

Finally I express my heartiest thanks to the authors and reviewers for contributing their valued time and articles in various forms to IJFAS without whom the journal cannot attain such great heights.

Hope to receive your scholarly contributions in future too.

With warm regards

Arvind Kumar Goyal
Editor-in-chief
